

Focus Fireplaces

**Beams,
Shelves and
Surrounds
for Stoves**

6

Focus Fireplaces offer an incredible choice of authentic **beams** and **shelves** to complement your stove. This information will help you select from the many options available.

1

Select the PROFILE of Beam or Shelf that you require

Great Beam

7½ x 5½"

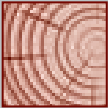

Not available in Prime Timber

Deep Beam

5½ x 5½"

Not available in Prime Timber

Large Fascia Beam

7½ x 2¾"

Standard Fascia Beam

5½ x 2¾"

Mini Fascia Beam

3¾ x 2¾"

Fascia Panel

7 x 1¼"

Large Shelf

2¾ x 7½"

Standard Shelf

2¾ x 5½"

Large Hollow Beam

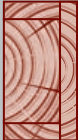

9 x 7"

Hollow Beam

7 x 4"

Hollow Shelf

4 x 7"

2

2

Choose the LENGTH you would like – 42", 48" and 54" are standards, but Beams and Shelves can be supplied at *any* length

+

CORBELS can be added either to your Beam...

...or Shelf

3 Make your choice of SURFACE TEXTURE and AGEING

Prime A higher grade of timber featuring smooth surfaces and soft rounded edges for a modern look

Rustic Smooth surfaces with lightly distressed edges.

Dressed Deeply contoured edges that combine with smooth surfaces to evoke a time-worn appearance.

Aged Distressed edges and surfaces.

Extremely Aged Heavy distressing on the edges and surfaces that creates the appearance of a centuries old beam.

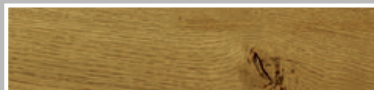

Note: All beams (except Prime) feature knots, splits and shakes.

4 Choose your COLOUR

Natural Waxed Oak

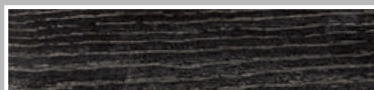

Light/Medium Oak

Medium Oak

Medium/Dark Oak

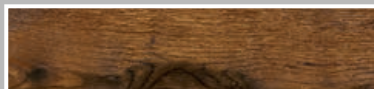

Ebony on Oak

Silvered Oak

White Wash

Warm Antique

Standard Pine

Antique Pine

5 You can CUSTOMISE your Beam at no extra cost

Arched

Slow arches are available on Standard Fascia Beams, Large Fascia Beams and Fascia Panels

Pegs

Pegs or Indents add character to any beam

Indents

6 FIXING SYSTEMS for Deep Beams and Shelves

Easy-fix

The Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws. Once fitted to the wall, the beam is secured on the bracket with discreet fastenings from under the bracket, this allows easy release for redecorating.

If the Easy-fix system is not specified: we supply three M10 x 300mm threaded metal bars that tap into pre-drilled holes in the back of the beam. The wall should then be drilled with 12mm holes to accept these bars. You will need to provide your own additional adhesives.

FIXING SYSTEMS for Fascia Beams and Panels

Fascia Beams, Hollow Beams and Fascia Panels are supplied with two metal plate keyholes inserted in the back. These come complete with plugs and screws.

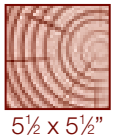

Alternatively there is an Easy-fix system designed for Hollow Beams and Fascia Beams. (This is more convenient but not essential).

We recommend the additional use of grab adhesive.

7½ x 5½"

5½ x 5½"

Great Beam and Deep Beam

Not available in Prime Timber

Great Beams and Deep Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Rustic, Dressed, Aged and Extremely Aged). Each beam is then beautifully finished with your choice of colour. Please Note: Great Beams and Deep Beams are made from Air-dried Oak and are not available in Prime Oak or Pine.

Beautiful Steel Beam Covers

Create a superb ambience in your room with our authentic timber beams.

They are ideal where a steel beam needs to be covered as they can be made to almost any length and dimension and finished to match your fireplace.

Wall and ceiling spars and dado rails further enhance the overall effect.

The room set features a Beam Cover and Spars in Rustic Oak in a Light/Medium Finish with a Beamish Surround, Beamish Mirror and a Hollow Beam Side Table to match.

Arch 'Brick' Fascia

Wall Panels in Ivory Finish

Arched 'Brick' Fascia

The Arched 'Brick' Fascia is supplied with two generous uprights, ideal for creating the required opening height. We just need you to tell us the opening width you need so that we can supply the correct arched piece.

Easy to cut to size on-site with a hand-saw

Brick and Stone Effect Fascias

These hand-painted Brick and Stone effect fascias provide an attractive way to finish the front of your stove opening. Made from one hour fire-rated MDF, they can easily be cut to size on-site or even notched to fit over a smaller hearth.

*Square 'Brick' Fascia

Beam Mirror: Dressed Oak in a Natural Waxed Finish*

Square 'Brick' Fascia with Beam

The Square 'Brick' Fascia is supplied in three generous pieces, enabling you to create the exact opening size required.

Wall Panels in Sky Finish

'Stone' and Beam Set: Legs in Limestone Finish
Large Fascia Beam with Shaped Edges: Extremely Aged Oak in a Medium Finish
Shaped Mirror: Extremely Aged Oak in a Medium Finish

'Stone' and Beam Set

The 'Stone' and Beam Set comprises two generous uprights in a stone finish, ready to be trimmed at the base to create the correct opening height. The uprights can be set to any opening width but with the recommendation that the beam above be 500mm (20") longer to create a suitable overhang.

Please check the chimney breast size though!

The illustration shows an 860mm (34") opening with a 1370mm (54") beam.

Large Fascia Beam with Shaped Edges:
Dressed Oak in a Natural Waxed Finish

Wall Panels

Wall panels are produced from Solid Oak strips of varying length and thickness mounted on 6mm MDF to create a random effect. They interlock on two adjacent edges and each panel covers an area 1200mm by 420mm.

The surface texture of each individual Oak piece varies to provide an attractive rustic finish of differing shades.

Great Beams and Deep Beams in 'Rustic', 'Dressed' 'Aged' and 'Extremely Aged' finishes are produced from solid air-dried European Oak, cut from the heart of the log. They feature natural knots, splits and shakes.

Fascia Beams and Panels and Shelves are produced from kiln-dried European Oak and also may feature some natural knots, splits and shakes.

Hollow Beams and Shelves and also Steel Beam Covers are fabricated from 21mm kiln-dried oak. Thus they can be made to any size and are much lighter in weight than a corresponding solid beam. Other beams, surrounds and shelves in the brochure are manufactured from first quality kiln-dried timber.

Timber being a natural product, is subject to a degree of movement under extreme conditions. Whilst we would expect very few problems we cannot guarantee its performance. Painted shelves and surrounds are manufactured from high quality MDF.

We offer a made-to-measure service on most of the products within this brochure. Beams can be cut to any length.

These products are continually updated and improved. We reserve the right to alter designs, dimensions and specifications of product without notice.

All sizes are approximate. Brochure colours may vary from the actual product due to printing processes and the variations in finishing.
